**Distinctively Different** is an Indiana-based interior design firm established by **Karen Mintze** in 1990.

After many hours of decorating homes for friends and family without charge, her husband said, "Don't you think you should start a business? It's obvious people love your work." Although her work began as a hobby, **Distinctively Different** has amassed a national client base that can be found in Indiana, the District of Columbia, Kansas, Florida, and Illinois.

**Distinctively Different (DD)** design concepts recreate conventional standards that incorporate innovation and sophistication, with eye-catching timeless style. The client's needs, lifestyle, and personality are what drives a new creation or design. At **DD**, we believe that a healthy lifestyle starts in the space where you live.

At **Distinctively Different**, we take the time to understand what our clients want, and we deliver quality results on time and within budget. **DD** prides itself on fair pricing, exceptional customer service, and a personalized approach for the needs of every client. **DD** works hard to ensure their clients expectations are always exceeded.
